The steamer Shaver jammed into a sunken log Monday morning near the head of Walker's island and was damaged to such an extent that she sank in several feet of water. She was towing two log rafts at the time of the accident. Reports are that the water was just above the main deck so it was thought not much difficulty would be met in the salving operations.

The final races at the St. Helens roller skating rink were held Saturday evening. Hugh Adams took down the first prize; Urie, second, and Wicks, third. The race was exciting from start to finish. Wicks and Urie were a tie and ran neck and neck until the nineteenth round, when Urie finally gained a couple of feet, which gave him the decision.

Mrs. W. E. Eversole and daughter of Trenchholm, came to St. Helens Friday and lost a bag containing upwards of \$8, a ring and some other trinkets. This was money which the little girl earned by picking blackberries and the loss was seriously felt. However, the bag and money has been returned to her intact. Mrs. Frank Wilkins and daughter picked it up on the highway between here and Houlton and brought it to this office to be advertised. Mr. Eversole came in Saturday and hearing of money being found, came into the office and proved the ownership of the property. Thus even the intent to advertise pays.

"The Comeback," a thrilling story of the logging camps of the Big Woods, is the play at the Strand on Sunday, the 13th. Harold Lockwood and May Allison play the leading parts in this great outside play, supported by an all-star cast and scores of native lumber-jacks and mountaineers who live in the woods where the picture was taken. Harold Lockwood played opposite Mary Pickford in "Toss of the Storm Country" and other notable productions. He was also Marguerite Clark's leading man in "Wild Glower." One of the striking features of "The Comeback" is a fight in the snow that Mr. Lockwood has with the bully of the logging camp. It is one of the most realistic fights ever shown on the screen.
